

# Hard Floor Care

BEFORE

AFTER

**Polishing and restoring the shine to vinyl and other hard floor surfaces is a specialist trade. CrestClean has trained and experienced personnel in each region who are able to care for all types of hard floor surfaces.**

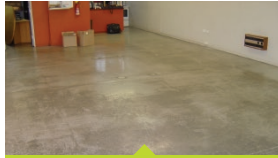

We use the latest equipment and high-quality polishes to restore a gloss shine to tired vinyl floors. Our ongoing maintenance plans keep your floor professionally shined and save you money over time.

## Our services include:

- Strip, seal and polishing of vinyl floors
- Machine scrubbing of vinyl, tiles, stone and polished concrete floors
- Machine burnishing and restoration of dull and scuffed vinyl floors
- Cleaning and buffing wooden floors, mopping with high-tech microfibre mops
- Stone floor care, using high tech pads
- Maintenance and cleaning of tiles and grout
- Floor care maintenance plans

# Hard Floor Care

**Before:** Scuffed and Patchy  
**After:** Shiny and Protected

## Vinyl Floor Restoration and Maintenance Plans

Surfaces in poor condition can be carefully restored and high traffic areas can have periodic reapplication of protective polish and machine buffing to bring back the shine. Our ongoing maintenance plans not only keep your floor in great condition, but also save you money and extend the life of your flooring surfaces.

## Environmentally Responsible Processes

Our green cleaning processes minimise the need for chemicals without sacrificing cleanliness and hygiene. CrestClean uses environmentally responsible chemicals to clean floors without creating a toxic environment in your workplace.

## Fully Trained Floor Care Specialists

CrestClean's personnel are trained specialists in Hard Floor Care. They attend induction and skills training at Master Cleaners Training Institute, which is accredited by the British Institute of Cleaning Sciences and an NZQA accredited Industry Training Organisation.

## SafeClean® Health, Safety and Environmental Management System

SafeClean® is an industry leading health and safety system specifically designed to minimise the risks of our cleaning at your premises. SafeClean® complies with ASNZ: 4801, ISO: 14001, Contractor Prequalification and ACC Workplace Safety Management Practices.

## Security Vetting and Insurance

All personnel undergo Ministry of Justice criminal background checks and other comprehensive security protocols. They are uniformed, wear photo ID and their signwritten vehicles clearly advertise that there are cleaners on the premises. CrestClean carries \$20 million in Public Liability Insurance and is a corporate member of the New Zealand Security Association.

## Hard Floor Cleaning Documentation

The following documentation is available on request:

- SafeClean® Health, Safety and Environmental Management System
- Master Cleaners Training Institute Hard Floor Care Programme
- Material Safety Data Sheets for our chemicals
- Public Liability Insurance Policy
